Peacebuilding Commission
Sixth session
Liberia configuration

Outcome of the first review of the implementation of the statement of mutual commitments on peacebuilding in Liberia

1. On 16 November 2010, the Government of Liberia and the Liberia configuration of the Peacebuilding Commission adopted the statement of mutual commitments on peacebuilding in Liberia (see PBC/4/LBR/2) to accompany Liberia's peacebuilding efforts. The agreed priorities were strengthening the rule of law, supporting security sector reform and promoting national reconciliation. The Commission also agreed to jointly review the statement of mutual commitments nine months after its adoption.

2. On 6 September 2011, the Minister of Planning and Economic Affairs of the Government of Liberia, Amara Konneh, briefed the Liberia configuration on the Government's efforts regarding the first review of the statement of mutual commitments. Following endorsement by the Joint Steering Committee in Liberia, the Government submitted its progress report to the Commission; on 9 September 2011, the report was disseminated to members of the Liberia configuration.

3. Following receipt of the Government's progress report, members of the Liberia configuration submitted inputs on their efforts in support of the Commission's commitments. Drawing on the Government's progress report, the inputs of the members of the Liberia configuration, the Peacebuilding Commission mission reports and relevant studies, a review was prepared on progress in the implementation of the statement of mutual commitments on peacebuilding in Liberia from November 2010 to July 2011. The report analysed the achievements in the three priority areas in relation to the overall efforts for peace consolidation and in preparation for the transition of the United Nations Mission in Liberia (UNMIL). The report concluded that the essence of the commitments agreed upon in the statement of mutual commitments remained valid but proposed some adjustments for the document to be more reflective of progress and challenges. The report also recommended new deliverable targets for each commitment as the basis upon which to measure progress for the second review of the statement of mutual commitments and proposed that the review period be extended from nine to twelve months.

4. This first review of the statement of mutual commitments coincides with the successful completion of the holding of the second presidential elections since the signing of the Comprehensive Peace Agreement more than eight years ago. With the inauguration of the incumbent President Ellen Johnson-Sirleaf, the country is preparing a revision of its second poverty reduction strategy paper in the context of undertaking a national visioning exercise designed to set the country on a long-term trajectory towards becoming a middle-income country by 2030. The present document draws on the recommendations of the review report with amendments to the commitment section of the statement of mutual commitments accordingly.

5. The Peacebuilding Commission recognizes that the primary responsibility for peace consolidation and development rests with the Government and people of Liberia. The revised commitments of each party are detailed below along with deliverable targets that will guide the second review of the statement of mutual commitments in August 2012.
